to improve	3	0	3	0
Acceptable	6	0	2	4
Good	22	8	12	2
Excellent	26	9	14	3
tot	57	17	31	9

METACOGNITIVE PERSPECTIVE

What really worked in the group?

Help each other - stay together - collaborating - efforts - stay united - sharing ideas - take turns in the different roles - teamwork

Which difficulties did you find?

drawing - stay in the group - produce the book - respect the roles - upload and modify the photos - finding inspiration for the text

How did you solve them?

with my mates help - finding together the solution - mediating - asking to the teacher - with all my commitment...

What would have happened if you'd done it differently?

The books wouldn't have been ready - a mess - no time respect - a disaster...											
What have you learnt?											
in group is better - new things - collaboarate - download, modify and upload photos - use my skills...											
In which other occasions can you use the same positive strategies?											
in the brakes - during games - in other groupworks - in helping others...
