

About us

Escolapias Santa Engracia is a school belonging to Escolapias Educational Foundation. We have been teaching children and young people at this neighborhood for more than 40 years, with a history of two centuries of education behind us.

We introduce you a familiar school, innovative and full of illusion that walks hand in hand with our students and families.

We offer comprehensive training, taking care individually of each person who crosses our doors. A school that innovates and looks for a better world, educating the people of tomorrow from our Christian values.

A small school that dreams big!

Where can you find us?

Camino Miraflores, 23
50007 Zaragoza (SPAIN)
