

ERASMUS DIGITAL DICTIONARY PROJECT

Dear Erasmus students,

please use this opportunity for better mutual understanding:

The importance of language

In order to get to know people and their country, it helps if you know a few words. That's why we want to introduce a dictionary app to you, which has been designed to help you translate into all the languages, which are part of our project.

So far it is just the frame. It is your responsibility to fill our digital dictionary with the help of students from your partner schools with all the words and expressions that you consider useful.

step 1: International cooperation and preparation

Form groups of 4 with one student from each country. Discuss which expressions are helpful for you and collect them in a list. You are welcome to add more categories.

- | | | | |
|-------------------|---------------|-------------------|------------|
| 1. Greet and meet | 2. Food | 3. Numbers | 4. Colours |
| 5. Family life | 6. Activities | 7. Places in town | 8. School |

step 2: How to fill the online dictionary with useful entries

After having collected the words please enter them in the dictionary app.

How to create new entries in the dictionary app:

<https://twinspace.etwinning.net/94021/pages/page/1124010>

The screenshot shows a web interface for a dictionary. It has two input fields: 'Spanish:' and 'Swedish:'. Below these are three buttons: 'Add' (with a plus icon), 'Delete' (with a trash icon), and 'Update' (with a refresh icon). There is also a 'Show All' button with a list icon. A small lock icon is visible in the bottom right corner of the interface.

Click on the lock .

The screenshot shows a 'login' window. It has a title bar with 'login' and a close button. There are two input fields: 'username:' with the text 'erasmus' and 'password:' with masked characters. Below the fields is a 'Submit' button with a right-pointing arrow icon.

A window pops up where you have to give the username and password. The responsible teacher for your group will give you the username and password.

One student inserts the English word and the translation in his mother tongue. Don't forget to click on the "add" button. Then all the other students can insert the translation in their mother tongue. Every time someone inserts a word in his mother tongue, (s)he has to click on "update".

You can delete a word from the list by clicking on the “delete” button.

If you want to see the whole list, you have to click on “show all”. Then you can print the list in pdf format.

If different students add a new word simultaneously, it can cause problems with the saving process.

To avoid this please refresh the database of the app from time to time by clicking shift+refresh button in your browser.

Have fun!!!
