

Today is the last day of our project. Even though we have another activity in the afternoon, we can already make an evaluation of this mobility. It is very important for us to know what you have learnt in these five days, what you liked or if you have any suggestions for future mobilities.

So we thought about doing interviews and making short videos (1-2 minutes).

**Questions:**

- What did you learn new?
- Do you feel these activities were useful for you? In what way?
- Did this mobility meet your expectations? Yes / No, why?
- What were the highlights of the activities we have done?
- Do you have any suggestions for the next mobility?

**Form the groups.** In each group there should be: 2 German, 1 Italian, 1 Polish and 1 Spanish student.

Here are the **Erasmus flags**. You can look for a place you like in the school or garden and do the interviews.

Each group **shoots the interviews** of his members.

**Make a video** with iMovie. Don't forget to write down or to say your names (just the first names). If you want you can also add music 😊

Don't forget the headmaster!
