

## Our week in Zarnesti

### Monday

The day started with the video presentations of the schools which I really enjoyed. It was very interesting to see so many traditions of other countries. Then we got to know each other and we made some new friends. We had a few

English lessons and then we walk to a museum (APNPC) that we visited after lunch. We learned a lot about animals, plants and the geography of Romania. (Bendegúz)

### Tuesday

We had 3 English lessons. We learnt about the cold war and it was very interesting. After this we visited the St. Nicholas Church, which was fancy and there were lot of gold paintings. Then we had lunch in a restaurant. In the afternoon we put on traditional costumes and we made a fashion show. I had a lot of fun on that day. (Veronika)

### Wednesday

On this day we went to Brasov by bus. First, we visited the Museum of Ethnography and had a guided tour there in English. Then we walked through the town centre and got some free time to have lunch. Then we met in front of the Museum of Urban Civilisation and had another guided tour there. After that we walked along the river back to the bus that took us to Cristian where we visited an old church. It was the last program of a very informative day. (Ákos)

## Thursday

On that day we went to Bran and visited the Museum of Ethnography in Bran. It was very interesting to see the traditional Transylvanian buildings. After that we saw people do traditional activities like sewing and weaving clothes. We went to an old school and paint a picture of Jesus on glass. While painting we had the lunch, which was very delicious: we

could choose between two types of sandwiches. I really liked this traditional activity, because I am an artist. In the end we went home and we had dinner at one of our friends' place. That was a really good day of the week. (Fruzsina)

## Friday

I really enjoyed the day. We tried out traditional activities, like egg painting or a ball sport, what we played with walnuts actually. It was really good to see what other people used to do for fun in other countries in the past. At night, we had a party at one of the students' house. It was great to get together and talk to others and just have fun! (Fanni)
