

## Our week in Abtenau

06.05. – 10.05.2019

### Monday

The day started with the video presentations of the schools, which were very exciting. Then we 'printed' T-shirts with our flags. That was a little bit long. After that we started learning to dance because we got a 'job' to learn an Erasmus dance with the other nations and at the end of the week we had to perform it. It was boring for me because I don't like dancing. After lunch we went on an "Action Bound" which was very good because we could explore Abtenau a bit more. (Bendegúz)

### Tuesday

We started our day with English lessons, where the teachers taught us a lot about the week's topic: immigration. In the afternoon we went to a salt mine on the border of Austria and Germany. We had to wear big white jacket and trousers. We had a great time, there were slides which we could use as many times as we could climb the stairs back. We saw funny clips about the history of this mine. My favourite part was the boat when we went through a little lake and there were lights and music. After that came the most exciting part of the week: we went up to a high, snowy mountain (1330m), where there was a bobsleigh run and everyone had to get down somehow 😊 I'm afraid of heights, so it was a huge challenge for me. At the end, it was worth it because the view was fascinating. We got to know each nation better and explored the best places near Abtenau. (Réka, Anna)

### Wednesday

We could spend a wonderful day in Salzburg. It is a beautiful city. We had to listen to a 2-hour long presentation about migration in Austria. (I wish we had explored the city instead of listening to it.) After that we could walk in the city in our free time. I enjoyed this part of the day. Then we took part at a guided tour in the castle. (Bence)

## Thursday

The day started with dancing and English lessons. Then we went to an open-air museum. The tour there was quite informative we learnt a lot. After that program we went back to Abtenau. There were no other activities that day and we were given about 2-3 hours of free time in the city. Thursday was one of the simplest, yet one of the most entertaining days throughout our trip. (Ádám)

## Friday

On the last day of our stay in Abtenau everyone gave their presentations. They were very informative, I learnt a lot from other cultures. Then all the students (of all nationalities) danced together. After that the organiser of this student exchange program handed out some awards. We won the first place of the video competition. Then we had some free time to look around the city for the last time. (Zsolt)
