

Our week in Zwickau

03.12. – 07.12.2018

Monday

We were at the school in the morning. We watched the films the schools had prepared about our home towns and voted for the ones we liked. Then we went to Zwickau for an 'Action bound' which is a kind of treasure hunt with QR codes. After that we went ice-skating. I did it for the first time and I really enjoyed it. Then I went to the Christmas market with my host student which was really beautiful with delicious foods. (Lili)

Tuesday

On Tuesday morning we met at the school gym at 8 o'clock. Then we had English lessons. First, we got to know the other students from different countries, then the first English lesson was about a German town and later we presented our home towns as well.

Between the lessons we had lunch at the cafeteria, and it was much better than what you would expect from a school cafeteria. After the lessons we evaluated the lessons and went home to the host families. (Márton)

Wednesday

We went to a mountain village in Erzgebirge where we made incense cones and a model

house. Then we visited Annaberg where we went to an old church where we listened to the history of it. We also went to the Christmas market there and had lunch. (Ferenc)

Thursday

On the 6th December we travelled to Dresden. We visited it by bus. Dresden is a beautiful city, we saw some churches and historic buildings. We went to the Christmas market there which was huge and wonderful. We had to ask people there and then we had a free afternoon. We all had a great time. (Andrea, Gergő M.)

Friday

We started the day with a surprise, the group from the Netherlands brought over their traditional Santa Claus. We had to make a board game and we had to present it afterwards at the evaluation in the gym. They announced the winner for the best movie, sadly we didn't win. After that we had a party where we ate together with the hosts. After the party we went to the Christmas market and bought some souvenirs for our family. The trip was good and I'm looking forwards to the spring of 2020 when we welcome them. (Gergő B.)
