

Report about our week in Rhauderfehn

On Monday our teachers told us our room numbers and we played many games. At 13:30 we went to the city centre where we took some pictures until 16:30 o'clock. After that we had to make a presentation about them. The students were divided into three groups. Each group had to present its pictures and we commented the work of the others. In the CLIL lessons we have learned about the history of Rhauderfehn. We've also learned the exciting story of Jantje and her kids. Their life was hard because her father had left the city and she had to help her mother.

On Tuesday we had three Clil lessons. During these lessons have we played games. After that we went to the Fehnmuseum where we had a tour, a cup of tea and a discussion. We've talked about the exciting history of Rhauderfehn. It was a really nice museum. After that we went back to the school. This was our day in the Fehnmuseum.

On Wednesday our group went at first to the art room where we had a discussion about Zwickau's sights. Furthermore we discussed about the colours which we wanted to use for presenting the sights of our home town. Next we painted them on a plank and nailed it on a wooden stick. We also talked about student's life. Finally we were very happy about the result of our work.

On Thursday we left Rhaderfehn by bus at about 8 o'clock in the morning. Our first station was Delfzijl. We arrived at 9:30. At first, we listened to a presentation about dike building and after that we visited the sea life museum. We had a quiz there. The prize were two shells. For lunch we had a typical Dutch dish in a hotel on the dike. After that we went to Groningen by bus where we had two hours for visiting the city. Unfortunately, we had to go back to Rhaderfehn. This was the most wonderful day of the week for me.

On the last day we gathered at 8:25 am in the cafeteria. We prepared a presentation for our host-families, took pictures and wrote texts about our monuments. We also finished the monument of Zwickau. We had to hurry up, but we finished on time because we helped each other. I personally enjoyed the painting.

For lunch we had fried fish and mashed potatoes. After the break we took a group-photo of all the Erasmus+ students and we played a game divided into two groups. My group played hike and seek. After the game we went to the cafeteria and waited for our host families. We were welcomed by Mr. Teitsma. He spoke a little bit about the week and told our parents what we had done and what we had visited. The Romanian group also prepared a presentation about our CLIL-Lessons. Then we watched the interviews and short films from Rhaudefehn. We presented our monuments and then we had a party with our host-families, teachers and all the students. At least we ate pancakes and said goodbye to each other, exchanged telephone numbers and instanames.

I think it was a great day with a lot of pressure, but we also made new friendships and had a lot of fun.
