Project Calendar-NOVEMBER

		ACTIVITIES	EXPLANATIONS
NOVEMBER	14-18	1-Creating a facebook group for the project. 2-Preparing a project board and announcement of the Project at school. 3-Organizing a project team and registering those students on Twinspace. 4-Preparing a video or slide-show about our school, village, city, country.	-The founder will create the facebook group. -It will be good to use project certificate, eTwinning and project logos on your eTwinning board. The Project logo will be available on facebook group and Twinspace.
	21-25	1-Organising a webinar about Augmented Reality (AR) 2-Giving information about Quiver, Chromville, QR Web 2. tools. 3-Sharing information about AR on eTwinning board at school. 4-Preparing a board about Nikola Tesla at school.	-AR should be used on our eTwinning boards at school. -Documentaries about Nikola Tesla, related part of the film "Prestige" can be checked. (This note is fort he tecahers in my country. The teachers from Tesla's country will naturally be more creative about Tesla. If we learn new things about this great scientist, we'll be very happy)
	28-02	1-Presenting Class Dojo. 2-Using Class Dojo at school. 3-Using AR in some parts of our schools. (Corridors, classes etc.) 4-Presenting Googledocs and SurveyMonkey. 5-A survey "How much do you know about science and technology?".	Survey can be done using Googledocs or SurveyMonkey. As another option, questions can be asked to the students and teachers by the Project team members recording as video.

Project Calendar-NOVEMBER

EXTRA EXPLANATIONS:

1-Whole calender will be shared in a few days.

2-Because there are various age groups starting from 7 to 18, activities suitable for each age group should be chosen by the teacher.

3-Technological opportunities will be different at each school, so activities will be carried out within the bounds of possibility

5-Each school should create a page on Twinspace. As schools do their activities and add photos, videos etc. they should also add those things on their pages. I'd like to remind that NSS analyze those pages while evaluating for Quality Label.

6-It's important that activities should be shared on the project facebook group and the Project journal on Twinspace.

7-We would be pleased to hear and add if you had any ideas about the calendar.
