

ERASMUS+ KA 229

“...e quindi uscimmo a riveder le stelle”

# TIMELINE OF ACTIONS

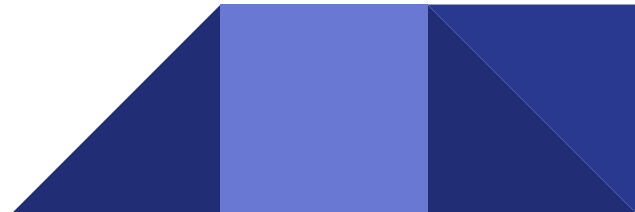

**16 July 2019**

The Indire Erasmus + National Agency announces that our project has been approved with a score of 95/100.

**17 September 2019**

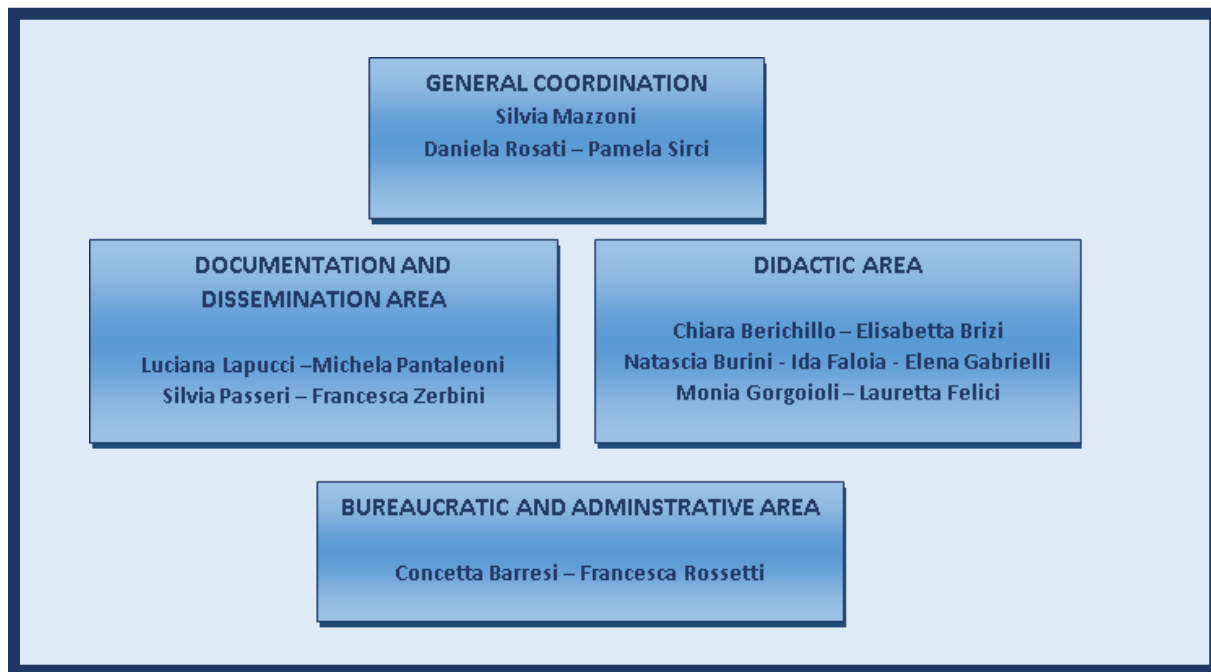

First information meeting for the teachers of the Institute.

The headteacher Silvia Mazzoni and the two teachers in charge of the European projects, Daniela Rosati and Pamela Sirci, illustrate the main actions of the project.

## 23 September 2019

Establishment of the work team on the Erasmus project and definition of tasks within the group.

## 24 September 2019

Meeting for the organization of the Short Term joint staff training Event – Kick Off Meeting

**1-7 October 2019**

## **KICK OFF MEETING IN ITALY**

Teachers of the partner schools met in Italy to share ideas and organize the steps of the project.

17 October 2019

## ETWINNING PROJECT

“...e quindi uscimmo a riveder le stelle”

Etwinning officially approves our project

## 2 December 2019

Selection of teachers and students participating in the first mobility in Ivalo.

## 6 December 2019

Meeting with parents of children on Ivalo mobility.

We collect documents and general travel information is provided to parents.

**Headteacher:** Silvia Mazzoni

**Teachers:** Pamela Sirci, Daniela Rosati

**Students:** Nicola Branda, Egidio Carucci, Elena Cerchece, Riccardo Continelli, Filippo Fratini, Matilde Marcantonini

## 13 December 2019

Start of the measurement activities for the pupils involved in the project. Measurements are made with different instruments built by children: the Hindu Circle to determine the north-south direction and the meridian of the place, MERINTO to measure the elevation of the Sun, the drawing of the horizon oriented to the west to detect the time and the position of the setting sun.

For the timing of the surveys, refer to the MATERIALS section.

## 30 December 2020

Creation of a virtual Erasmus Corner

## 14 January 2020

Second meeting with the parents of children on Ivalo mobility, to share the program and communications relating to departure.

# 15 January 2020

## FIRST NIGHT OBSERVATION OF THE SKY

Students involved in the project were divided in two groups: one group gathered at the stadium of Passaggio di Bettona and the other at the Brufa Sculpture Park. Both groups were led by some experts in sky observation. The children had the opportunity to observe the constellations and then they had to trace them on the map that had previously been prepared and printed, for each of them, using the Stellarium program.

**16 January 2020**

## **PREPARATION MEETING FOR IVALO MOBILITY**

The pupils participating in the mobility in Ivalo worked with the teachers to prepare the materials needed for the work sessions in Finland. They collect data and prepare themselves to represent their classes during the mobility on the astronomical topics of the project.

## 19 – 24 January 2020

### FIRST MOBILITY IVALO (FINLAND)

From 19 to 24 January 2020, took place the first mobility of the 5 planned in the Erasmus project "... and then we went out to see the stars again!"

The group of "special correspondents" was made up of six students: Nicola Branda, Egidio Carucci, Elena Cerchece, Riccardo Continelli, Filippo Fratini, Matilde Marcantonini.

The students were accompanied by the Headteacher, Prof.ssa Silvia Mazzoni and the teachers, Daniela Rosati and Pamela Sirci.

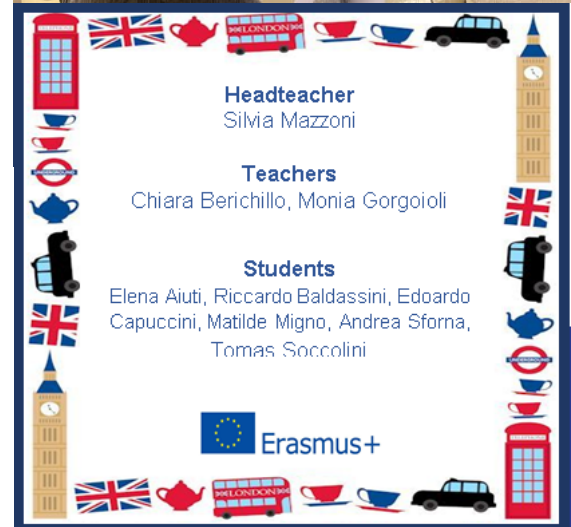

**23 January 2020**

Ivalo mobility

Meeting between the teachers of the delegation to plan the following actions

**13 February 2020**

Selection of teachers and students participating in the second mobility in London.

**Headteacher**  
Silvia Mazzoni

**Teachers**  
Chiara Berichillo, Monia Gorgoioli

**Students**  
Elena Aiuti, Riccardo Baldassini, Edoardo Capuccini, Matilde Migno, Andrea Sforza, Tomas Soccolini

 Erasmus+

## **20 February 2020**

Ivalo mobility dissemination with teachers

The headteacher and the teachers in mobility at Ivalo share their experience with colleagues, focusing on analogies and differences regarding the two school systems.

## **21 February 2020**

Meeting with parents of children on London mobility.

We collect documents and general travel information is provided to parents.

26 February – 3/4 March 2020

## SCHOOL DISSEMINATION WORKSHOPS - IVALO MOBILITY

Ivalo mobility dissemination with students of primary and secondary school in Torgiano and Passaggio di Bettona.

Riccardo Continelli and Matilde Marcantonini, coordinated by teachers Pamela Sirci and Daniela Rosati, share the experience lived in Finland with the children of primary and secondary school in Torgiano.

Nicola Branda, Elena Cerchece, Egidio Carucci and Filippo Fratini, coordinated by teachers Elisabetta Brizi, Elena Gabrielli, Rita Cristofani and Elisa Tofi, refers to the children of the primary and secondary school in Passaggio di Bettona.

27 February 2020

## ERASMUS EVENT IVALO MOBILITY

The headteacher thanked everyone for their participation and gave the floor to the mayors of the municipality of Torgiano and Bettona who expressed their appreciation for the initiatives related to the first mobility and confirmed their support for future actions.

Students told about the activities carried out during their stay in Ivalo: the landscape, the flora and fauna in Lapland, the culture of the Sami people who live in that area, the traditions, uses and customs of the place. They told about the experiences lived at school, the similarities and differences with the Italian school system. They also shared the results of the data comparison carried out during the work sessions in Ivalo.

The headteacher and the accompanying teachers shared their experience about the aspects related to the school and to the professional and personal development, stressing how these experiences implement personal and professional skills, open the mind and enrich life.

ACTIVITIES/EVENTS RELATED TO THE PROJECT

## PICCOLO FESTIVAL DELLE ARTI MIGRANTI

*The festival is an event dedicated to integration and art in a location, the Brufa Sculpture Park, which is an extraordinary example of artistic integration in a natural context.*

During the second evening of the festival, some students of the Institute, with the Headteacher Silvia Mazzoni, led an observation of the sky.
