3	CONSTELLATION CHALLENGE	Challenge between classes on the Kahoot platform. Topic: the constellations	10 minutes
4	GUIDED TOUR OF THE SCHOOL	Two students from each school, with a mobile phone, show their school to the partners Alternatively, you can share a short video or photo slideshow.	20 minutes

ACTIVITIESPLENARY MEETING

COMPARISON OF THE DATA OF MARCH 2021

During the first meeting, in which all the classes will be involved, the data collected by the students in March 2021 will be compared.

Two pupils from each school will report the collected data, we will complete a table that will be shared with everyone during the meeting and later will be available to all students.

CLASSES' MEETINGS

1 – HELLO! - VIDEO PRESENTATION OF THE CLASS

Each class prepares a video of up to 2 minutes in which each student introduces himself (name, class, a greeting).

At the beginning of the meeting, each class presents their greeting video to the other.

2 – TOPIC – PRESENTATION OF A TOPIC

Students share information relating to the chosen topic (also with the help of online presentations). They ask and answer peers from the partner school about the topic.

TOPICS

TOPIC	POSSIBLE IDEAS
OUR SCHOOL	<ul style="list-style-type: none">• School system in our country: subjects, activities, school time...
OUR VILLAGE/TOWN	<ul style="list-style-type: none">• Sharing information about our village/town
OUR CONSTELLATION	<ul style="list-style-type: none">• The class invents its own constellation and a myth linked to it
EVERYDAY LIFE/HOBBIES	<ul style="list-style-type: none">• Sharing info about hobbies and activities

3 - CONSTELLATION CHALLENGE

During the meeting the two classes will compete in a quiz, via the Kahoot platform, which will have the constellations as its topic. This quiz will be prepared by the coordinator school.

4 - GUIDED TOUR OF THE SCHOOL

In the last part of the meeting 2/3 students, with a teacher from each school, first one class and then the other, will show their school to classmates with whom they held the meeting, moving around the building with a tablet or a mobile phone.

Alternatively, you can share a short video or photo slideshow.

TECHNICAL INSTRUCTIONS**Meeting access**

All meetings will take place through the Meet platform (GSuite). The access codes to the meetings are indicated in the schedule above.

Each meeting will be started by the Italian team: if possible, log in with a Gmail account, otherwise, at the time of access you will be asked to enter NAME AND SURNAME and the room owner will give you access.

Materials to share during the meeting

As for the sharing of videos and presentations (video-greetings, presentation of the topic, any school video) each class is responsible for their own sharing.

Challenge / Kahoot

- 1) The Italian team will launch the Kahoot and provide the Game Pin for access to the game.
- 2) Access to Kahoot through the Game Pin must be done through a device other than the one used for the Meet connection.
- 3) If possible, provide children with more than one device (tablet / laptop / smartphone) so that they can play in small groups.
- 4) During the challenge, turn off the microphone of the device used for the Meet connection.

LIST OF TASKS FOR EACH PARTNER:

- Collect data from the surveys of March 2021
- Prepare the presentation video* of each class participating in the mobility: each student prepares a greeting video (name-class-greeting) which is edited in a short video (max. 2 minutes)
- Prepare a short presentation on the topic chosen from those proposed
- Make sure that the students of your school fill in the satisfaction questionnaire
