Small garden surrounding yard

We sometimes plant a vegetable garden

Seating in yard made by students using natural building materials

A courtyard area with a paved floor. In the center, several large, rectangular hay bales are stacked on wooden pallets, forming a U-shaped structure that serves as a bench. To the right of the hay bales, there is a large, full black plastic trash bag. To the left, a stack of logs is visible. The courtyard is enclosed by a dark green metal fence. In the background, a stone building with windows is visible. The text "... using hay bales" is overlaid in the bottom left corner.
