

# eSafety

## addiction

It causes you to neglect your responsibilities by spending more time online and there is therapy for this.

## cyber-bullying

There are many people who create fake profiles to anonymously harass or threaten others.

## hacking

Hackers break into our accounts through our passwords and steal information, personal data, bank accounts .....

## piracy

Illegally downloading other people's material and the money the authors lose is a lot

## antivirus

there are several apps that protect your entire system from any danger or will detect and remove it.

## pornography

generates a large amount of revenue per year and makes minors not understand the sexual aspects as the content is within their reach.

- Do not leave your passwords to anyone
- Be careful who you meet on the internet
- Make purchases on secure sites
- Be careful what you post, it can't be deleted.
