

DIFFERENT LIFE

Hi, I'm Adrián, I study at Blas Infante, Córdoba, Spain.

QUARANTINE

At first it was boring and distressing , but I was getting the hang of it, making calls with my friends or playing video games.

AFTER QUARANTINE

When I was able to go out, the first thing I did was watch my friends and play sports outdoors.

NOW

Now I go to high school every day and on weekends I meet my friends

Possible ideas to end

They should put tougher and more strict laws so that there are not so many infected and when the vaccine comes, get vaccinated to make the trip to Turkey.
