Bonjour à toutes et à tous,

je m'appelle Christiane Eichel et je travaille au St.-Irmengard-Gymnasium à Garmisch-Partenkirchen. Je n'ai pas tout à fait réussi à mesurer la distance directe, mais le guide m'a sorti la distance de 447 km par la route. Alors nous sommes dans l'équipe des Astéroïdes.

Merci pour toutes vos informations précieuses!!

Je m'appelle Sofia Argyropoulou et je suis professeur du FLE au collège et lycée grec "Ampeteios" qui est situé au Caire, en Egypte.

C'est une école qui répond aux besoins des communautés grecque et chypriote.

Notre distance de Westergrund est à 2888km et on fait part à l'équipe Uranus

Je vous souhaite tous un bon commencement et bon jeu!! :-)

Répondre • Citation • Éditer • Supprimer

Christiane Eichel - 17.08.2019 @ 21:30

Ça y est, j'ai trouvé un outil pour calculer la distance:

Thank you for the alternative way, dear Christiane

I have just tried <https://mapmaker.nationalgeographic.org/> and also google maps for your school

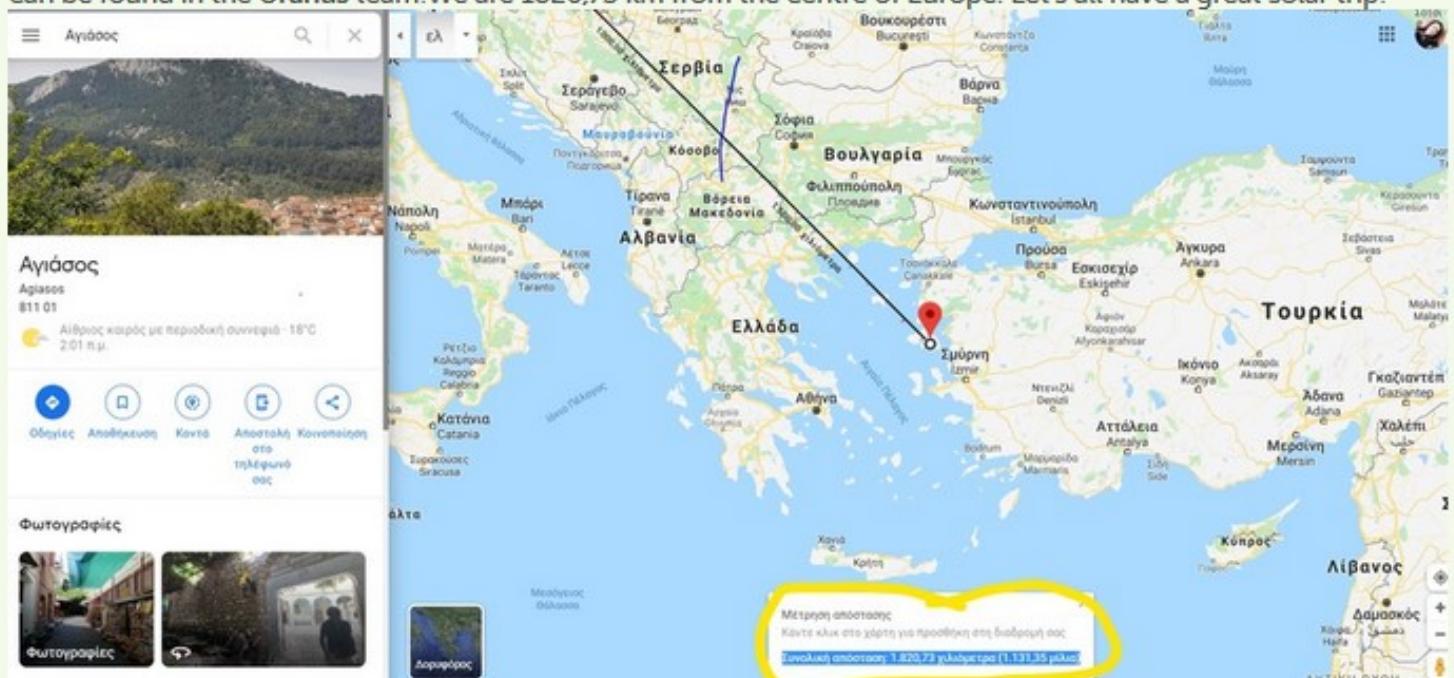

Following the suggested

procedure in google maps the distance for your school is quite similar and i think rather more accurate and easy but of course both ways work

Hello everybody!

This is my school location in the province of Varese (which is in the North of Italy) ... It is called "Scuola secondaria di primo grado G.B.Maino" and is located near Milan and Malpensa airport ... since we're a little bit more than 563 kms far from the center of the European Union, we're part of the "Asteroid belt" team :)

I am happy to be part of this project, we are so many!!!

Looking forward to "virtually" meet all of you and your students.

Répondre • Citation • Éditer • Supprimer

Lidia Baroi - 18.09.2019 @ 12:32

@ partners that have the message "Check Eric's directions how to measure your distance"

The steps are:

On google maps:

1. On the left top corner, on the white "search area" TYPE European Union Center Westerngrund Germany and PRESS Enter
2. On the red mark that appears on the Westerngrund, RIGHT CLICK and on the menu that appears LEFT CLICK on "measure distance"
3. On the top left corner, on the white search area TYPE the name and address of your school and PRESS Enter
4. On the red mark that appears on your school LEFT CLICK and ...here comes the distance
5. Take a screenshot and post the photo in project's Journal and in your school's page

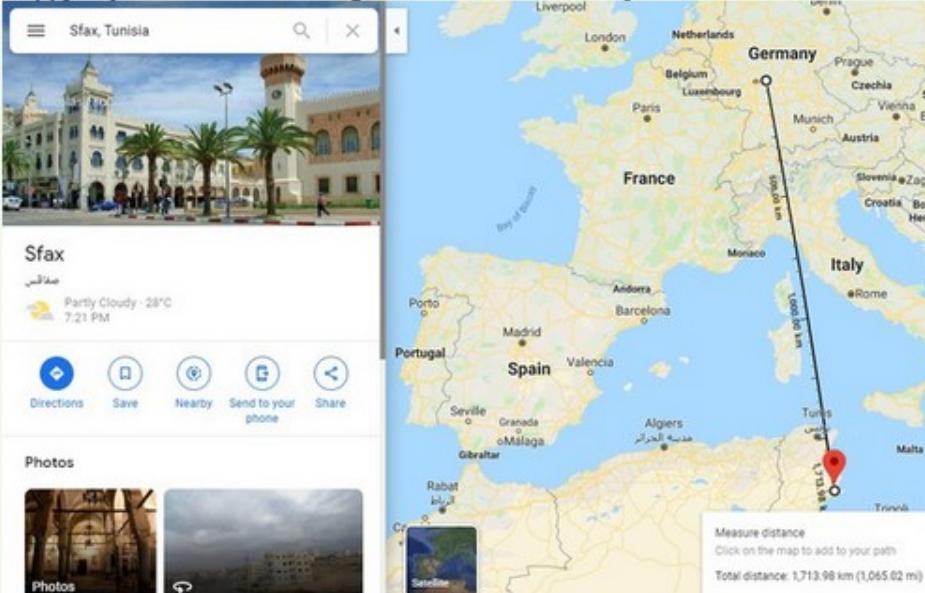

The right distance is a black straight line among the two places (your school and Westerngrund)
