

Let's move in! (global simulation project)

eTower

The eTwinning collaboration project students from France, Serbia, Spain, Italy, and Norway

This project, based on global simulation, aims to immerse students in a reference universe, in this case, a building, where they can create characters who will interact during events or scenarios.

Who are we?

42 flats

137 inhabitants

Where do we come from?

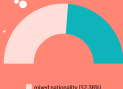

Same as in real life 27%

Different than in real life 73%

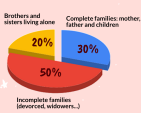

Who are we living with?

Number of families: 20

Our families

Families with adopted children:

5

Grandparents:

4

Pats:

3

Our hobbies

Our jobs

2019/2020
