

⚡ Poem about ⚡ energy and water

Energy comes in many ways
But some, we don't praise
Fossil fuels will run out
Solar, wind, and water are a better route
we all clean our share
for cleaner water and air
Use energy that's renewable and clean
And make the future a better scene
As sunlight shines through windows,
As wind blows through turbines,
As water flows through dams,
It all creates energy which balances earth
which makes the life to live worth
and keeps us warm and clean,
And it will keep the earth nice and green
So lets all be clever
For today, tomorrow, and Wakanda foreva

Poem about transport

"Go, go, go!!
We can take the train,
Instead of the plane.
We can do car-pooling
Or we keep walking
Go, go, go!!
We can take the bus,
It's better for us."

Don't waste Food

**WE SHOULD SHOP LOCALLY
INSTEAD OF IMPORTING FROM
TURKEY OR CHILI
AVOID EATING ANIMALS
AND DON'T TAKE FOOD FROM
MALLS
DONATE NON PERISHABLE FOODS
TO CHARITIES
PROVIDE FOOD FOR SCHOOLS IN
DEVELOPING COUNTRIES
DO NOT WASTE FOOD
MAKE THINGS GOOD
LOOK AT THE WORLD
ANIMALS ARE DYING
DON'T BE SCARED
DON'T BURST OUT CRYING
THIS IS A PROOF
THAT MEAT'S NOT SO GOOD
SAY THAT YOU WON'T CONTINUE
ORDERING JUNK FOOD
OF THE MENU
AND DON'T FORGET TO GET YOUR
TICKET**

Poem about health

Health

Drink a lot of water because that's better
Eat more vegetables if you want to be incredible
Cycle to work or go for walk

Sugar isn't good
it's like fast food
It's not good for your heart
even though it looks like art
Eat healthy food
it's very good

ETWINNING

Recycle

-POEM-

Pay attention
This is action
of recycling
It isn't silly,
this is bullying our Earth
Tell your moms, dads,
uncles and ants
to recycle!
This is so dangerous
When your eyes are
closed
damage is already caused
Everything is in our
hands
Stop throwing trash
to our beautiful lands!

Poem about responsible consumption

To have a responsible consumption
You shouldn't deal with mondialisation
Don't take to much food for you
Because you're not eating for two

More than six thousands miles for jeans
That all kids are wearin'
What a hell of a production
Not cool for responsible consumption.

You should prefert local seller
If you want to be a good customer
Maybe you should avoid "Made in China"
And the planet will be finna'

By the way, buy you food near from your home
If you don't want to be like "under the dome"
If you want some more, go to internet.
And you could save the planet.
