

Erasmus+ Programme

Erasmus+ is the EU Programme in the fields of education, training, youth and sport for the period 2014-2020.

Europe needs more cohesive and inclusive societies which allow citizens to play an active role in democratic life. Education and youth work are key to promote common European values, foster social integration, enhance intercultural understanding and a sense of belonging to a community, and to prevent violent radicalization

The purpose of this project "BUILDING A BETTER EUROPE THROUGH SPORT VALUES" is to explore and promote an increase in the awareness of European citizenship through the sports values. We are involved in this European cooperation because we want give our teachers and students diverse opportunities to get in touch with other countries and cultures.

Taking part in this European Partnership will improve participants' knowledge of the other partners encouraging, enabling and sharing learning experiences and understanding while, at the same time, giving added value to the different realities in each other's culture.

Close and active contact with other European countries immensely enriches both our student academic and personal development: they acquire knowledge about their own, as well as their partners' countries, concerning sports, education, culture and private lifestyles. At the same time, this experience will broaden their horizons based on learning about themselves as European citizens.

Co-funded by the Erasmus+ Programme of the European Union
