## 2018-2020

# The home page overview

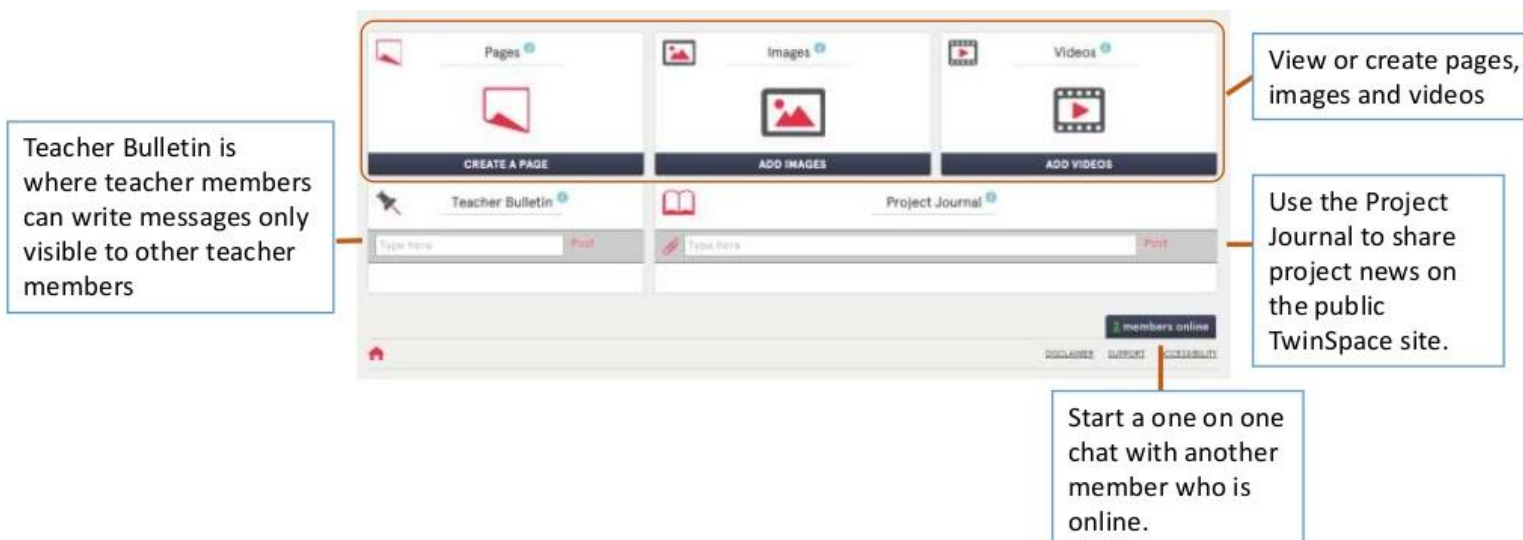

## TWinspace

With the **Profile settings** users of the Twinspace take the first steps in expressing their digital identity. Adding a profile picture and a short description are important **for the first impression** others have about you.

- **Click on your name to change the profile settings.**

The Profile settings (including picture and written description) will be displayed in all the Twinspace you make part of.

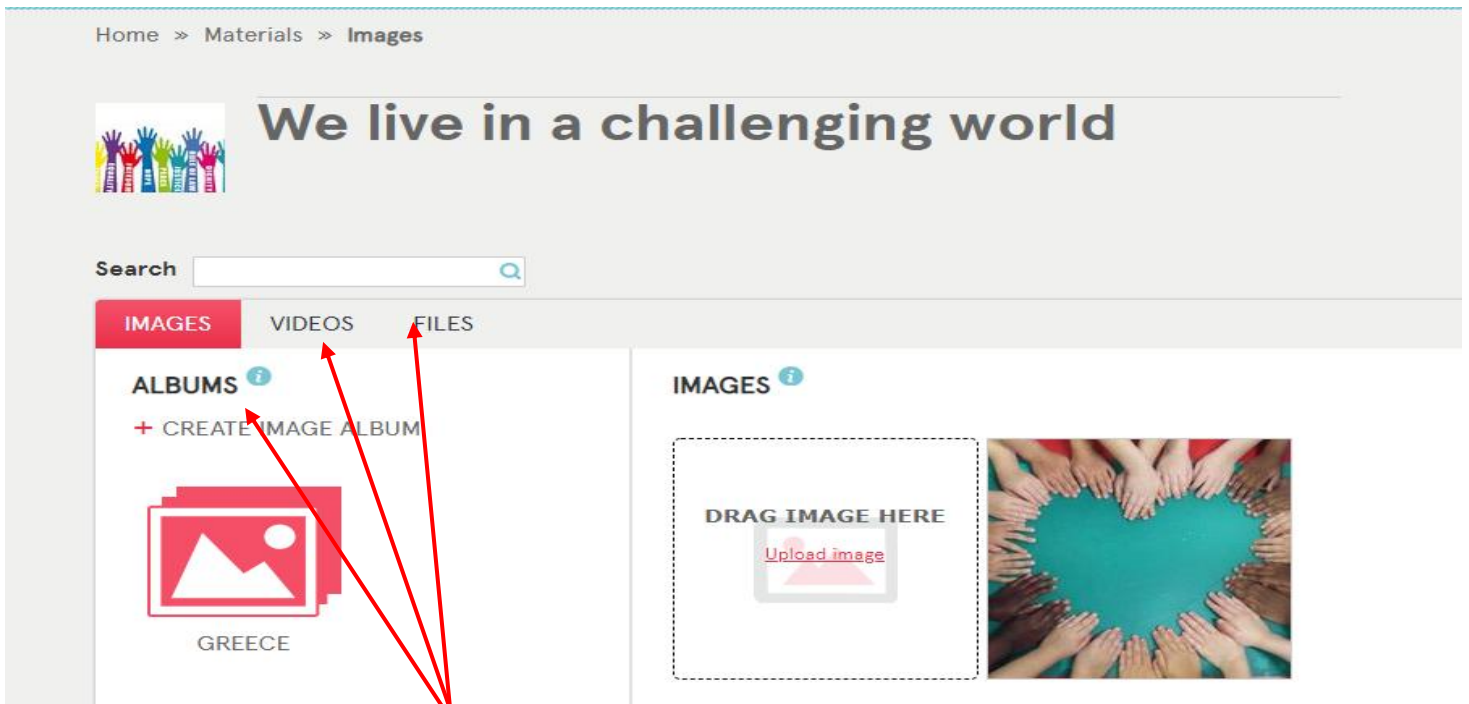

- Teachers should provide **guidelines** for the students of how they must write the profile description: what is the language, what type of information must (not) be shared etc. Teachers must also provide guidelines, if necessary, about **the profile picture**. A picture tells more than a thousand words. **Teachers cannot delete the profile picture of the student.**
- The Twinmail is a messaging tool comparable to sending an email. Messages can be

sent by all members to the members of the Twinspaces they are part of.

## MATERIALS

If you want to paste images, videos or files in a page **FIRSTLY** you have to upload it on **“MATERIALS”**.

Create image album, create folder for videos and files to organize your images.

1. Create an image album and give the name of your country
2. Create a folder for videos and give the name of your country
3. Create a folder for files and give the name of your country.

Done ?

You can upload anything relevant you want *now* or *later* for practice.

- Drag or select images from your computer to add them to your TwinSpace
- Click “Add Video” to add a video from youtube or Vimeo (follow the instructions)
- Drag or click “Add File” to upload a file

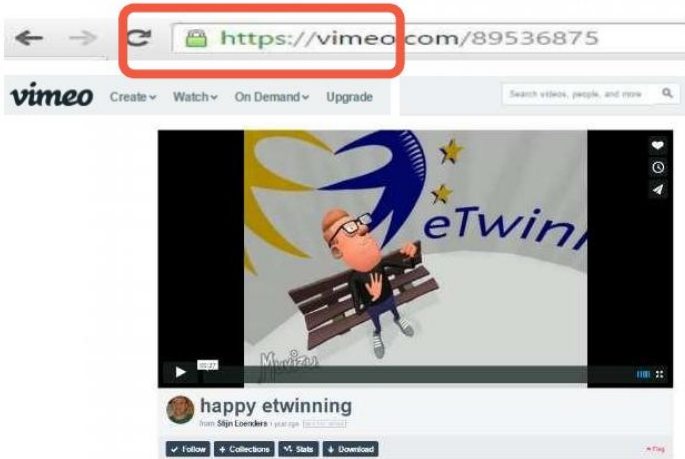

You can create stand-alone albums with e.g. pictures or videos of activities or you can integrate pictures or videos in **PAGES**, **FORUM** posts or **PROJECT JOURNAL** posts.

You **cannot** upload videos **directly** to the Twinspace.

You need to upload a video first to Youtube, Vimeo or DailyMotion.

For safety reasons you should categorize videos at **Youtube** under **UNLISTED**. In this way the video will be hidden for the Youtube search engine. However the video will be visible to anyone who knows the URL.

## tips!

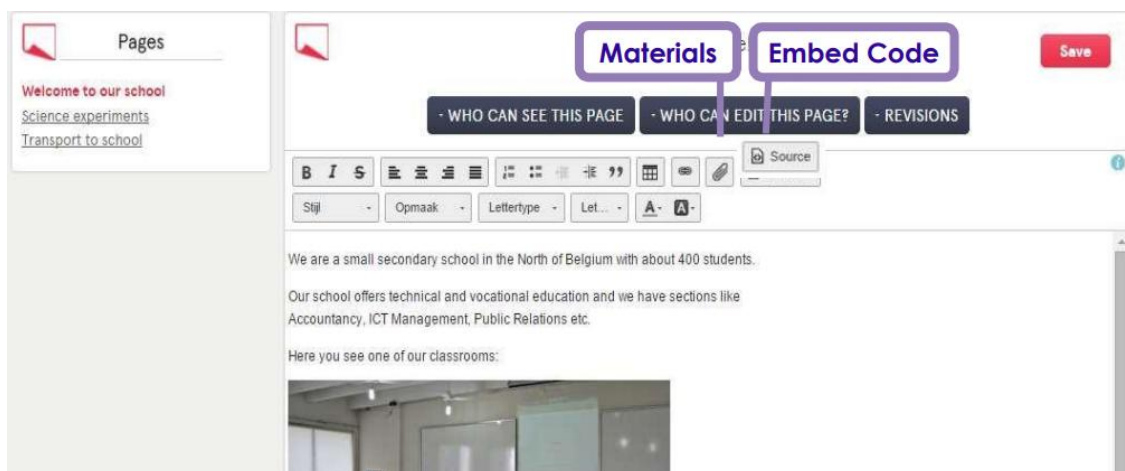

To transfer the video to the Twinspace, you first COPY the URL of the previously uploaded video at YouTube, Vimeo or Dailymotion and then PASTE it in the MATERIALS section of the Twinspace.

For copyright reasons is **advisable** to use only pictures of which you own the rights or that have been shared **under Creative Commons License**.

1. Pictures you took yourself or that belong to **Public Domain** can be used freely without attribution of the name of the author.
2. When you use pictures under Creative Commons License you need to give credit to the author in the proper way

Allowed files are text files (.pdf, .txt, .doc, .docx), presentations (.ppt, .pptx), spreadsheets (.xls, .xlsx) and compressed files (.zip, .rar). The maximum file's size is 20 Mb

Pages can contain text, but also materials (images, videos, files) as well as embedded content. Click the icons to add materials or to paste the embed code of the internet application. Please note that not all embed codes will work in the Twinspace.

CREATE A PAGE

About our project

The main objective of this project is to work with the definition of the United Nations on Human Rights and make it a living document for students. Establishing connection with people from different countries, different background and different cultures can be the key to solving the problems of discrimination, segregation, racism and bullying in school. Teaching young people about human rights will make them be better able to defend civil, political and social rights.

Create a new page

Edit the selected page.

See who created and edited page.

1. Create a new **page**
2. Write the Title “[the name of your country]/[the numbers of the articles of Human Rights which will be discussed at your country]”
3. Write a few words about the articles at the main body ex. Justice, gender e.t.c..
4. **Save**

Done ?

✓ With pages you can tell the story of your project. Uploaded **materials** like pictures, videos, presentations and other project outcomes can be presented in a coherent context.

### Teachers

New teacher partners are added on the level of eTwinning Live.

#### We live in a challenging world

02.09.2018

The main objective of this project is to work with the definition of the United Nations on Human Rights and make it a living document for students. The great number of migrants leads to national, cultural and religious diversity in classrooms, which in its turn provokes discrimination, segregation, racism, and...

- Edit
- Image gallery
- Add new partner(s)
- Manage partner(s)
- Close project
- TwinSpace
- Project Card: talk to your NSS
- Download eTwinning Certificate
- Apply for a Quality Label

If the country is not covered by eTwinning click to “Teachers” and select the country of the teacher you wish to add.

## Pupils

- Teachers add the pupils to the Twinspace. They add the names of the students and provide them with a password. Students cannot change the credentials. Teachers can RESET the PASSWORD of pupils.
- Teachers can export the data of logins and passwords of the students to Excel: EXPORT INVITED PUPILS. If necessary also **Visitors** can be added to the Twinspace. Visitors are adults who will not register at etwinning.net (e.g. parents). The procedure is similar to the invitation of pupils.

- Teachers can give Pupils the role of PUPIL ADMINISTRATOR. PUPIL ADMINISTRATORS can create PAGES and FORUMS. Pupil Administrators can assist teachers. They can have the Administrator’s role temporarily (e.g. during a lesson). Pupils Administrators have **high level ownership and responsibility.**

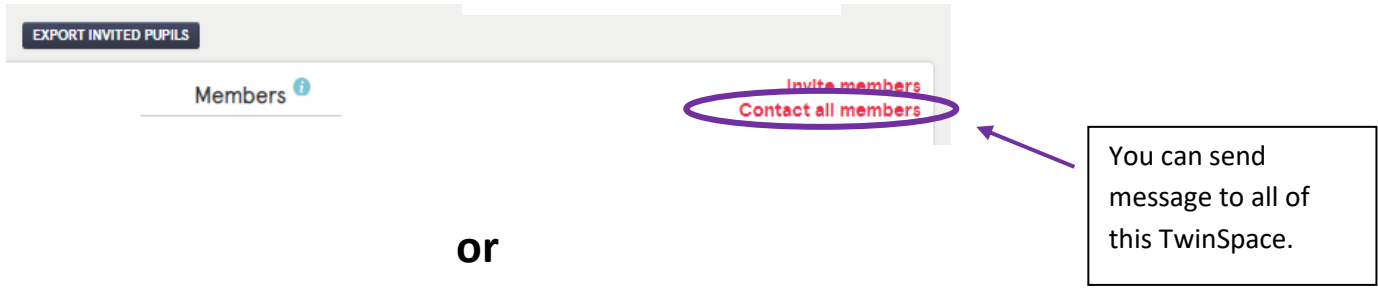

1. Invite a pupil
2. Give the role of administrator to a pupil.
3. Save the xls with the pupils’ names and passwords.
4. Put this file at your folder file at Twinspace.

## LIVE

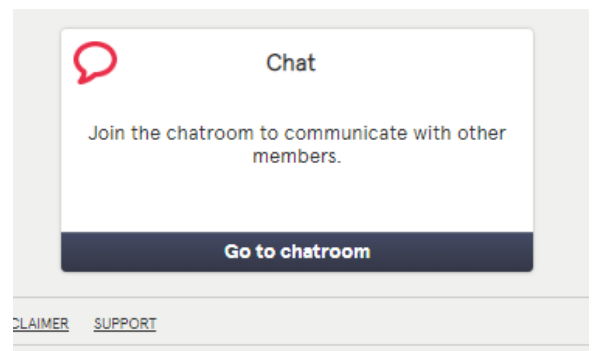

The Twinspace offers several tools for **synchronous communication**:

- there is a chatroom where **all online members** can join a live discussion.

Teachers can download and export **the chat history**. It will prevent possible bad behavior of students. The feature is also handy **for pedagogical reasons**: teachers can assess the contribution of all members to a conversation.

- members can also send 1:1 direct messages to other participants who are online.
- Teachers can set up Live Events for the members of the Twinspace.

The Live Event **cannot be accessed with accounts of pupils**. When organizing a virtual meeting with project partners, teachers should display the Live Event on a big screen in the classroom.

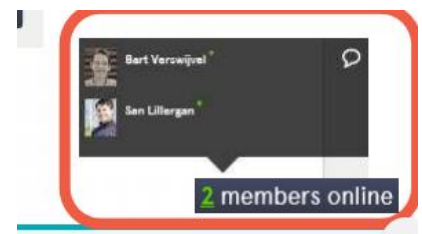

Chat

Join the chatroom to communicate with other members.

# FORUMS

The screenshot shows a forum interface with the following elements:

- Forum list:** A list of forums including 'ΓΥΜΝΑΣΙΟ ΒΥΡΩΝΑ', 'Γυμνάσιο Καισαριανής', 'Εκπαιδευτικοί', and 'Μαθητές'. Each entry shows the number of threads and options to 'Edit' or 'Archive forum'.
- Create new forum:** A button labeled 'ADD FORUM' is located at the top right of the forum list.
- Latest posts in all forums:** A section titled 'Latest forum posts' showing a list of recent posts with their titles, authors, and dates.
- Your latest forum posts:** A section titled 'My forum posts' showing posts made by the user.

A forum is a tool **to involve participants in an ongoing a-synchronous discussion**.  
Only members with administrators rights can set up forums.

Setting up a forum goes **in 2 steps**.

- The first step is to define the general topic or discussion theme and to give a description.

The 'Add forum' form contains the following fields and buttons:

- Name \*:** A text input field.
- Description \*:** A larger text area for the forum description.
- CANCEL:** A red button to cancel the operation.
- SAVE:** A red button to save the new forum.

- The second step is to create one or more discussion **threads**.

**Threads** are the actual discussion (sub)topics participants can express their view on.  
To make the CREATE THREAD button visible, you need to click on the title.

The 'Create thread' form contains the following fields and buttons:

- Title \*:** A text input field for the thread title.
- Message \*:** A rich text editor for the thread content, featuring a toolbar with options for bold, italic, strikethrough, bulleted list, numbered list, link, unlink, quote, and code.
- SAVE:** A red button to save the new thread.
- CANCEL:** A red button to cancel the operation.

A very useful link where you can find everything about eTwinning!
