IES "CONSABURUM"

Spain is situated in southwestern Europe, surrounded by the Atlantic and Cantabric oceans and Mediterranean sea.

Thanks to our geographic location,
the weather in Spain
is excellent during
the most part of the year

People from all over the world come to visit our popular coastlines and landscapes and enjoy the warm temperatures and long days in summer.

Santa Cruz de Tenerife

Ibiza

The Teide, the highest mountain in Spain

Madrid, the capital of Spain

The largest park in the city is the Retiro Park, where you can go to have a walk, do sport and escape of the noise and pollution of the city for a while.

New Year's eve at "Puerta del sol"

The "Puerta del Sol" is also one of the most well-known places in Madrid.

It is a crowded square where everybody goes to take a picture at the historical monument "El Oso y el Madroño".

ALCALÁ GATE

PRADO MUSEUM

You also must visit important buildings like The Royal Palace, Alcalá Gate, Museums...

ROYAL PALACE

At the north of Spain, Barcelona is another relevant city in our country.

The Sagrada Familia cathedral and the "Güell Park" are two examples of its wonderful architecture.

And if you want to visit a beautiful city in the south and learn more about "sevillanas dancing", you must travel to Sevilla.

Sports in Spain have
a big role and
importance too.
The most practised
sport is football.

One of the best known football teams are Real Madrid and Barcelona FC

Camp Nou

Santiago Bernabeu

We also have good tennis players like Rafael Nadal, known around the world.

Garbiñe Muguruza

Tennis Stadium

Finally, I must say that people in Spain are very kind and friendly.

We are commonly known because of our famous "fiestas" (parties) and "siestas" (naps), but we are hard-working people too and we will always be pleased to welcome everyone who come to visit us.

SPAIN IS WAITING FOR YOU

A stay in the beautiful city of Consuegra promises plenty of fun and a number of interesting sites to see, including a medieval castle, historic architecture and a stunning landscape that make for a great day trip and a very fascinating adventure. Let me guide you in this exciting travel.

The main sights and most important monuments in Consuegra, which we will describe in more detail below, are the windmills and the castle.

But Consuegra has a rich history dating back to Roman times as well

Some of its roman remains are displayed at the archaeological museum,
placed in The Main Square

**Sientes realmente la historia
Consuegra...**

Circulo Histórico y Cultural Consaburensis

Consuegra's main attractions are an 11th century castle, that was once the stronghold of the Knights of San John from **1183** to **1837**, and its perfectly preserved windmills. Each of the mills is named after Don Quixote's characters.

Castle of Consuegra

The castle was once a stronghold when Consuegra was the seat and priory of the Knights of San Juan, the Spanish branch of the Knight's Hospitallers of the Order of St. John of Jerusalem.

Tercía House and Town Hall

TWO GREAT HISTORICAL PLACES YOU CAN'T MISS!!!

WINDMILLS

Most Spanish windmills, like those described in Cervantes' Don Quixote, can be found here in Consuegra, and they are the best examples of restored Spanish windmills of all

Several mills spike the hill giving us a spectacular view of the 12th-century castle and of the town since 1836

There are 12 windmills to explore on the hill just outside of the city

Festivals, crafts and food

La Mancha

The Rose of Saffron Festival is celebrated each year on the last weekend of October . The fields are a sea of this particular bloom, which is quite a sight ! Traditionally, when the people of Consuegra finished the harvests, the festival began. It is a quaint, folkloric festival where the connection to Don Quixote is strong. The windmill called "Sancho" is used to grind the wheat, and a local beauty is crowned "Dulcinea", the name of Quixote's lady. Visitors can also get here a taste of traditional music and dancing from La Mancha.

The making of crafts is a major activity in Consuegra. As pottery or forge

The food in Consuegra includes dishes such as *migas*, small pieces of bread mixed with chorizo, bacon and ham; and *gachas*, snacks made of flour, chorizo and other local ingredients, like Olive Oil. Wine and the cheese are quite good as well

Urda

Urda is a small town near
Consuegra. Students from Urda
come to Consuegra's High School

One detail of Guerrero Malagon's gates in the church of Urda

Urda is famous for its church which is honouring the Christ of Urda, specially its rich decorative doors

I really hope you
like Consuegra and
Urda!!!
