ERASMUS DAYS 2020 IN LITHUANIA

We celebrated the Erasmus Days in our school on the 16th of October in 2020. We invited students from grades 6-9 to participate in the workshops using the WordArt application. We transformed the words and phrases that we associate with cooperation within the project Finding European Identity through Education and Intercultural Dialogue between European Citizens into pictures using the Word Art application. Here are some of our students' works.
