

JOB DISCOVERY

As company visits and meetings with professionals are currently difficult to schedule, an online questionnaire has been created on the theme of job discovery.

This questionnaire is offered in particular within the framework of the internship in a company in "3ème"(the last year of French junior high-school, 14/15-year-old students) and that of the Erasmus project "No to dropping out, yes to perseverance! Prepare your future in Europe" in which the students of "4ème" (13/14-year-old students) are involved.

We thank you for the 5 to 10 minutes that you will devote to answering this questionnaire which is anonymous. It is for the students to understand the main characteristics of your profession, the skills required and the studies or training to be considered.
