

CREATING A LEARNING LOVE

ONLINE MEETING

17th FEBRUARY 2021

AGREEMENTS:

- All partners will **finish** with the **descriptions of their own games**. The last group of games were those for Slovenia meeting: **Imagination Games, Team Games and Outdoor Games**.
- **Spain** will create a **document** in which every partner will write **the name of their games (20 games)**. Within these games **some of them** can be **marked as appropriate** games so that children can **play them at home** with their families. **This list of games should be filled during first week of March.**
- Then, each partner will choose **2 or 3 games** from that list and **play those games in the kindergarten with the children**. We will take photos or make a video of our children playing games from other countries. **This task must be done by the end of March.**
- At the same time, we will propose **some games** from other countries (those from the list which were marked as appropriate for families) to **our families and will ask them to play at home**, take some photos or videos. **This task should be done by 16th April (approx).**
- We will have an **ONLINE MEETING WITH CHILDREN** on the **10th March at 11 am (Brussels time)**. For this meeting we will be **outside** and children will show the rest of countries the **environment** and **weather** of that day in their town or city, **say hello, show their clothes** at that time... In this way our children will be able to see the differences between the countries.
