

Secondary

School

“Virgen de la

Cabeza”

History of the center

The current I.E.S. “Virgen de la Cabeza” opened in 1961 as a center for training farmers. Its original name was “Farm school” and taught about agriculture..

From 1965 began to give specialized courses for professionals and agro-livestock sector in order to raise the technical level of agriculture.

More history...

With the LOGSE law (1992-1993) taught vocational training cycles, Secondary Education and was renamed as: “IES Virgen de la Cabeza”

Today in our center you can enjoy several different areas: areas of classrooms, sport facilities, big areas for farm and areas for agricultural practices.

Areas of our center

This is the entrance to the school and sport center areas. This area is good for a raining days.

This is the area where we spend playtime each day.

Areas of our center

We have several computer rooms where we can find information or teach there.

Internet connection is available throughout the center.

Areas of our center

This is the assembly hall where they usually perform many actions such as theaters, visit to different people or different lectures for student at the high school.

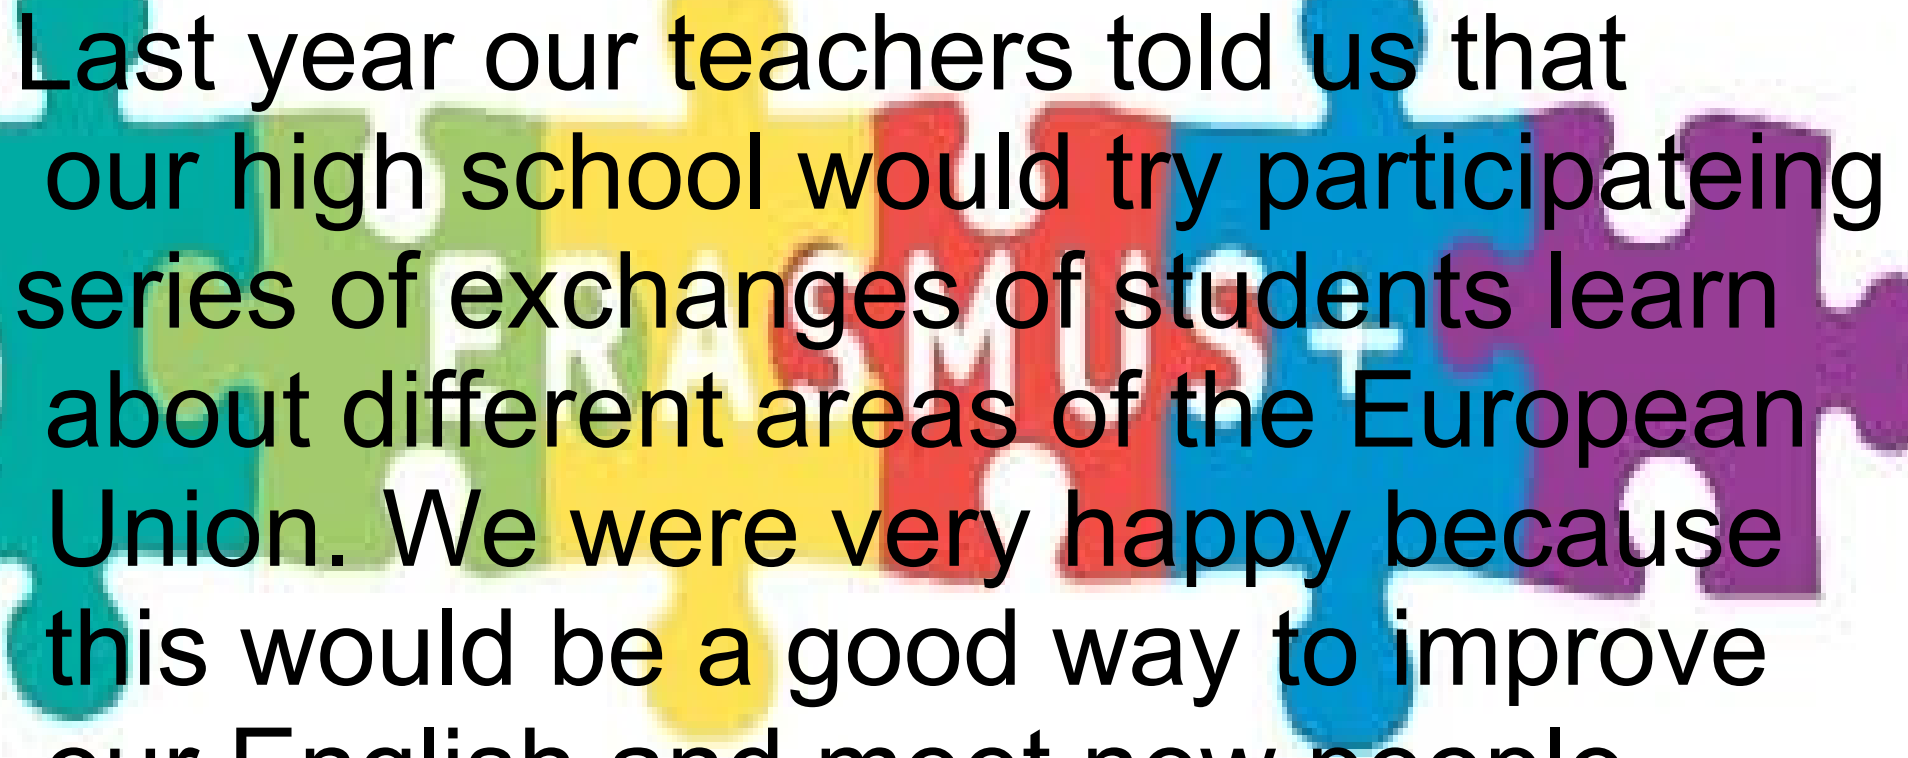

And many more areas...

We have numerous classes each for different courses, several laboratories, drawing areas, sport facilities and many more kinds of different subjects.

Erasmus +

Last year our teachers told us that our high school would try participating a series of exchanges of students learn about different areas of the European Union. We were very happy because this would be a good way to improve our English and meet new people.

What we did

At the beginning of the course the teachers told us that our school had been chosen for this project.

A series of works from all students could perform from 3^o ESO group were organized.

When the teachers in charge assessed all the work put the marks taking into account the score of French and English subject in the above courses and students who left early were selected.

IES VIRGEN DE LA CABEZA-MARMOLEJO

Erasmus+
2014-2015

**The first trip to be performed is this one, in Greece,
Dedicated to the work and music.**

**Before the trip we have prepared the activities we
are going to do in Greece with our teacher.
All we really want is to know Greece and to meet
People.**

The stay will be from February 8 to 15.

More trips

They also will be making more trips to the European Union countries like Italy, England, France...

They are already selected all the students wick will participate. Each group has to perform works on the place what they will visit.

We are the
students and
teachers who
will make the
Trip to
Greece
