Meat:

Here in Romania, we **love** meat. So we have a lot of products made out of different kinds of meat, like smoked ham, sheep chops, smoked pastrami, and the famous sausages from Pleșcoi.

The honey from Romania is highly appreciated by the whole world, being certified as bio.
It's produced with great care and pleasure.

We can find our wonderful honey under various assortments, such as sunflower honey, polyphorous honey, lime honey, acacia honey .
