

# **BRIGHT**

As every zealous bee collaborates for a  
common GOOD

As a word could make a phrase understood

As a past experience builds a person's  
IDENTITY

A thought participates in the evolution of  
HUMANITY

Europe's growth depends on man efforts

And each one the unsure future comforts

The humankind was born to be UNITED

And only like that the world's soul could be

**BRIGHT**

## **Part of Something Special!**

From the north to the south

From the warmer west to the east

In each country, state and inhabitation in between

We all must remember, no country is the least

Every inch of every flesh and bone

Nobody in Europe should feel alone

One big family; 700 million deep

Boundaries aside and differences forgot

In 50 nations we stand together

Regardless if we sleep in king size bed or not

Every inch of every flesh and bone

Nobody in Europe should feel alone

Like in the human body or an orchestra

Everyone has to work in harmony

Ignore differences and causes for conflict

Instead work in perfect symphony

Every inch of every flesh and bone

Nobody in Europe should feel alone

Languages, ethnicity will not split us,

We are part of something special!

# UNITAS

No man is an immigrant

We're all bound to the same chains

It's foolish to think we are different

We all have blood bleeding from our veins

From the midnight sun to Apollo's house

Where the pain in stone remains

The old lady dressed in her blue blouse

We stand together under her stars

And for peace she bows

# **EUROPEAN!**

European teenager are

United as citizens of the world

Ready to share our opinions and always

Open to try new experiences

Part of a diverse society, we are

Eager to learn and

Accept that we are all different and unique,  
we

Never give up!

# Fishbowl

I'm a fish in a fishbowl

I spend my days watching my reflection

And seeing dreams through the glass

It's safe but it makes my future grey

Other fish are only far shadows to me,

Is this division protecting or repressing me?

Should I take the risk and become free?
