## PROJECT TOPICS DEVELOPED DURING THE LTTA

---

- The I.I.S. “Mandralisca” of Cefalù is the coordinator of the Erasmus + KA2 Watchful European Young Environmentalists Project, a partnership project with institutes from four other countries: Lithuania, Romania, Portugal and Turkey.
- The aim of the project was to increase the interest and attention of our students to science and ecology and to develop a more particular sensitivity towards the problems related to the environment and the activities developed during the mobility.
- The themes of the project concerned: the climate change, the loss of ecosystem and its balance, waste management, energy from renewable sources (green energy), and have been carried out workshops, presentations, conferences, classroom and naturalistic environments .
