## Spain - New years

In 2021, I'm really excited to learn more about countries! I'm hoping to improve my social skills! I'm not the best at communicating at times.. **Problematic, better, slow..** I think those words will describe 2021. Problematic because I think there will be loads of issues this year. Better because I think it will be better than 2020! Slow because I feel like this year is gonna be really long. This year we hope to achieve a better world, freedom, better education etc.. Also no racism or hate speech. What I'm looking forward to the most is basically nothing.. I'm not really excited for anything because I don't think there's gonna happen anything crazy this year!
