

Managing the legacy of traditions

NEVŞEHİR HALİL İNCEKARA SCIENCE AND ART CENTER

Nevşehir Halil İncekara Science and Art Center was opened in December 2009. However, education started in 2011-2012. All of our students are specially talented. The recruitment of students to our center is carried out by a 3-stage selection from the grade levels determined by the General Directorate of Special Education and Guidance Services each year. In the first stage, the candidates are determined by the class teachers, the second stage is made as a tablet application and the final stage is made as an individual assessment. Our center provides training in 3 skill areas. These are general areas of talent, painting and music. Currently, there are 240 students, 1 manager, 1 assistant director and 11 teachers.
