

## MEETING IN FINLAND BY IMANOL LEZA, SPAIN

Hello,

This has been one of the best weeks of my life, I never thought that I was coming to this beautiful place and have so much fun. I've seen incredible landscapes and met a lot of people. Naantali is a very big town compared to mine, I thought that this place was smaller and that I wouldn't do so many things.

One of the most memorable moments for me was the christmas party at Metsätäti, most of the people that I met in this project was in the christmas party, the people were nice with me and it was one of the moments that I enjoyed the most. The food was very tasty and I loved the moment when Santa Claus came and gave presents to everyone.

One of the things I really wanted to see was the snow because in the Basque Country you can see snow only one time per year. I was very excited when I saw that in the fifth all the town was covered by the snow, it is even a more beautiful place when it snows. It was incredible to see that the entire lake was frozen.

One difference between my country and Finland is the temperature, the day that we went to the walk in Haijainen I was freezing, and I was next to the fire, apart from that, that is another moment that I will remember.

Another memorable moment was the day that we went to Turku, I learnt a lot of things about the history of that city and really enjoyed the visits to the castle and the church and the castle. After that, we went to the shopping center. We went for a stroll there and I bought some things for my family in the Basque Country.

The family that took me in their house was very nice with me, their house was incredible and very big. They treated me very well and my experience with that family was very nice.

In summary, I really enjoyed all the things that we did in this week, I lived memorable moments that I will always remember. I really hope to come back here someday and see again all the people that I met this week.
