

My Experience from the Czech Republic

At first I was very excited because this would be my first trip abroad. We started preparations 1 week in advance, The role-play for Erasmus. After a week, a long plane journey awaited us. At first, from Antalya to Istanbul, then from Istanbul to Prague, the capital of Czech Republic. We were all very excited when we landed in Prague. With quick steps, we visited the historical buildings and places of the city. The city has a really historical feel. In the evening, we set off by train to the town of Karvina where we had to go. We reached Karvina in about 4 hours and the families we stayed in took us. We had a great time with them for 1 week.

During the project, I became more social and started to speak English more fluently by talking to people in other countries. We had a lot of workshops, role-plays, discussions and activities. We presented our school, city and country to other partners. We went to other cities in Czech Republic during the week, too. It was a really tiring week. We visited churches, cathedrals, science fair, chocolate factory. At the end of a week, the last day came. After everyone said goodbye to each other, we went to house. The next day, we came to Karvina train station to reverse the journey we made at the beginning. Our journey lasted for a full day, but we finally arrived in Antalya. We went back to our schools 3 days after arriving in Antalya and shared the events and moments we experienced in Czech Republic with them.

I think this project is very efficient and I continue to improve my English by talking to the friends we have made.
