

MEETING IN FINLAND BY ELIŠKA HANUSKOVÁ (CZECH REP.)

Are you asking about my feelings from Finland?

The best feeling is that I have become friends with all of them, and also how a foreign family can be nice to me.

I was very surprised that they used computers in lessons. I was also surprised, how many people have sauna at home and that they have such beautiful houses with large windows. I liked them all for every joke, because on Monday we jumped into the icy sea and then went to the sauna. Then we all lay in the snow and made snow angels. If you did not try it, I recommend you at least once to jump in such winter to the sea, it is very refreshing. I also liked the city so nicely decorated.

The only thing that disappointed me was that the trip was short, because as soon as I became friends with all of them, I had to go home.

I liked the trip, and I hope to meet some of them! Living with a foreign family gave me new experience, and this is certainly not my last trip.
