

Obchodní Akademie Karviná
Business Academy of Karvina

The Commercial Academy in Karviná, Czech Republic was founded in 1992 as a private secondary vocational school.

The concept of studying at this school is based on the principle of providing the necessary education for direct employment and the targeted setting-up of conditions for postgraduate studies at college.

absolvents can after school

a number of professions:

- ADMINISTRATIVE
- ORGANIZATIONAL,
- ADMINISTRATIVE OR BUSINESS ACTIVITIES IN DIFFERENT TYPES OF COMPANIES OR ORGANIZATIONS.

THE BENEFIT WHY TO STUDY ON OUR SCHOOL IS MORE:

- It is certainly very good accessibility for both Karvina and foreign visitors.
- Fewer pupils in classes or study groups are guaranteed an individual approach, a good working and study climate.
- Teachers offer the possibility of individual consultations in case of a longer absence of the pupil.
- In practice, practitioners are taught to ensure a good connection between theoretical knowledge and real life.
- The school provides borrowing textbooks throughout the course.
- School Leadership encourages students' interest in studying with incentive bonus systems, of which the most striking is Free Studying for Best Students
- English language teaching is supplemented several times a year by student excursions to different countries (such as Greece, Portugal, Lithuania, etc.) as our school has long been involved in international projects supported by the EU.

ECONOMY AND SPORTS

The field of Economics and Sport offers young athletes the opportunity to combine secondary school with active sporting activities. The study is suitable for pupils interested in economics, sport and languages. The school creates the conditions for studying both performance-level and top-level sports pupils, as well as for pupils who only sport recreational activities. The school prepares pupils for business and managerial activities, including a focus on foreign co-operation. Emphasis is therefore placed on economic subjects, foreign language teaching and sporting subjects.

absolvents can after school a number of professions:
