

My Experience in Turkey

I often reminisce about my experience in Turkey. It is one of the most amazing opportunities I have ever had in my life. Before leaving, I was very nervous and had no idea what to expect, because I was heading to a different country, filled with people I have never met. However, after arriving in Turkey, the people were very welcoming and gratifying. It was interesting to learn about all sorts of new cultures, that I did not know much about. I also learned about their traditions, which they are very passionate about. It was neat to compare my country's traditions with theirs. In addition to learning about the cultures, I saw beautiful sights of Turkey. I also had a fun time while doing the group projects. We discussed a lot together. Overall, I am very grateful to have had this growing opportunity. I made new friends from all over the world, and learned many things from this project.
