

MEETING IN FINLAND (by Carola Porto, Italy)

One of my best experience in my life is for sure Erasmus+ in Finland.

This is not just a project but is a way for meeting girls and boys all around the world, knowing the culture of different countries and learning new languages.

The first day that i came here in Finland i was so enthusiast baecause i knew it wold be a beautiful experience and so it was.

My host family is so kind and disposabe, they gave me so much love and i`m so grateful for this.

I never forget this trip, i made so much friends here and honestly i don`t want to come back to my country, here is all beautiful, for the first time i saw the snow ,i had a sauna, and i did a workshop with gabriele, anuththara, sara and ishka where we made an artistic work with recycled material, so much fun!

Maybe i will come back here, i hope i can see everyone again.

Thanks all for this amazing experience i will never forget it.

Greetings from Italy we are waiting for you!
