Feedback

"In my opinion, this project is a phenomenal idea."

"We did what we could considering the pandemic situation."

"I think that this project is a very good idea, and I am happy that it was proposed to the whole school. I was also wondering if the trips that had to be cancelled in 2020 would have a chance to get postponed."

"An interesting experience to improve our knowledge about different cultures and people in the planet. A good way to learn English while having fun."

"It (the project) is an astounding way of learning not only language, but opening one's mind on multiple opportunities, understanding other cultures and most importantly, understanding and appreciating the many things European Union has provided us with. I myself was astonished when I've learned some facts about the EU and its impact and role in shaping our modern world (not only Europe)."
