

# EUROPEAN PATH (e) MOTION BOARD GAME

**This board game has an educational character. The players can gain knowledge of some European long-distance paths and the countries the paths pass.**

**The board:**

The board consists of the map of Europe which depicts four European long-distance paths (E1, E4, E6 ,E8).

We chose these four paths because they cross Italy, Greece and Romania.

**Object:** The object of the game is become the first to pass the last block.

**Equipment:** The equipment consists of a board, dice, 4 tokens, 15 green cards, 15 purple cards, 15 brown cards and 15 turquoise cards.

## **INSTRUCTIONS**

***~In the first place, all the players have to place their tokens on the arrows.***

***~Secondly, the players in turn throw the dice. The player with the highest dice indication starts the play.***

***~According to the space, which his/her token reaches, a player may draw a green/purple/brown/turquoise card according to the color of his/her path and the number of block. Then he/she has to follow the written instructions.***

***~The player who crosses the last first block wins.***
