MONTORO…
NOW AND IN THE PAST

- While we were looking for information about old houses in Montoro, we came across a wonderful <u>website</u> with lots of old pictures of our town.

- Then, we thought it would be a great idea to show how things have changed after 50 or 60 years. So we decided to contrast a photo of a corner or a street from that website and a photo taken by us of (if possible) the same view and taken from (approximately) the same place. Here is the result.

All the old photos were taken in the 1960s except where indicated
