## Documentation

**Activity:**  
P7

**Name of the activity:**  
Olympic flame route

**Country:**  
Finland

**Pupils age:**  
10-11

**Place:**  
School

**Date:**  
May 2020

**Number of pupils:**  
11

**Subject:**  
Geography

**Connection to other subjects:**  
Environmental studies,  
Finnish

### Preparatory activities:

The pupils learned about the geography of Europe: the south, the west, the east and the north. They used the digital material called Aivot, (the Brains). That is our official teaching material. They learned about the landscapes, weather, society etc. They watched a video about the lighting of the flame in a traditional way in Greece.

### Activity:

The pupils had a printed map of Europe. They planned the route of the Olympic flame from Greece to Finland. They had a free choice of the countries and they could travel in land, water or in the air. After they had drawn the route in their maps they studied the countries they have chosen and made some brief notes on the maps.

### Subsequent activities:

**Results:**

The pupils learned about the idea of the Olympic flame. They found out interesting things about several countries.

**Comments:**

Due to the Corona virus and the distant teaching period we had a shorter time to make this activity.
