Documentation

Activity:

P7 Olympic flame route

Name of the activity:

6

Country: UK**Pupils age:**

6-11

Place: School

(classrooms)

Date: April 2021**Number of pupils:**

25

Subject: P.E.

Connection to other subjects: P.E, PSHE, GEOGRAPHY.

Preparatory activities:

Children review what they learnt in the previous activity (P6), from there they pointed again to each country in the map and named the countries and capitals.

Activity: Children watched a video about the Olympic flame from the last Olympic games. They followed in a map the route and drew their own one in their own maps.

Then in an interactive board, children started from the start point at Mount Olympus and drew a new route through each country involved in the project.

Results: This is the route the children followed: Mount Olympus, Poland, Czech Republic, Finland, UK and Spain. Then the children had their own map and drew different routes including our partner schools.

Comments: When children shared this with the whole class we could see the good geographical understanding of European countries and distance between them.
