

Google Apps for Education:

Rocío Casado Molina and Lourdes Fuentes Poveda.

Google Apps Workshop

Date: Tuesday 13:30 and Wednesday 10:20 am.

Tools: Gmail, Hangouts, Google Classroom, Google Drawing, Google Drive, Google Forms and Google Sheet

Objectives

- Learn how to use Google Apps.
- Put on practice the flipped classroom method.
- Collaborative work.
- Learn to communicate information through infographics.

First Activity: Tuesday

First step:

We will begin with a brief presentation on Google for education, the flipped classroom method and infographics. This presentation, as we are explaining it in class, will be recorded with: Screencastify, a plugin of Chrome, which is a video recorded. This video will be shared using Google Classroom.

Second step:

You'll have to register and enter into Google Classroom "ICT WORLD SPAIN" (code 6n0z4q), and go to "News (Novedades)". Here you can find two videos. The first one, is a recording of our last class. The second one is an explanation about how to do an Infographic. Also, there is a Google Formulary with some questions about: WhatsApp, Smartphone, Instagram, Facebook, Youtube, Twitter, Snapchat, Pinterest, Line, Skype, Twitch, Spotify and Netflix. You need to do the homework! ☺

QUESTIONS:

- ❖ At what age did you start to use.....?
- ❖ Which app do you think is the most useful one?
- ❖ Which app is the one that you like more?
- ❖ What do you use this apps for?
- ❖ How many hours per day are you using these apps?
- ❖ Organise from 1 to 12 these apps depending on your interest on them?
- ❖ ---

Second Activity: Wednesday

In our workshop, you are going to be divided in different groups. Each group will have a different theme or topic based on the formulary of the first activity that we did.

Therefore, every group will do its own version of Infographic using the results of the formulary. If you have any doubts you can watch again the video (Google Classroom).

When you use Google Drawing, automatically all the changes and the document itself is stored in Google Drive.

If you need some inspiration, you can look at our examples:
