# E-SAFETY AND NETIQUETTE ON
# TWINSPACE

## WE NEED PERMISSION

Before starting the project, we are going to ask for your parents' permission to share images and videos made by you on our Twinspace.

## USE AN AVATAR

We will be using avatars on Twinspace in order to protect your privacy.

## RESPECT COPYRIGHTS

Remember always to write the name or the link to the material you have been using. For instance, we will be using Flaticon, which is a copyright-free site, but it is always kind to refer to the authors.

## RESPECT DIVERSITY

Being different is a reason to celebrate. Try to be polite and don't make any negative comments regarding other people's opinions, culture and privacy.

## PARTICIPATE

In order for things to work, we need to participate actively in the creation process. If you have any problems regarding communication or work, please write a comment in the forum created for that purpose.

## RESPECT THE DEADLINES

If we do not stick to the deadlines, people will get frustrated and the project will fail.

## BE POLITE

Introduce yourself when talking to unknown people and remember to say goodbye and use always kind words

## CHECK ALWAYS

Before posting anything, check always with the rest of the group and with your teacher if it is OK to post it. You may be sharing private information about other people.

Let's enjoy this learning experience e-safely!
