

Monday 11-04-2022

On Monday morning we went at first to Ano Poli (the old town of Thessaloniki). We saw the beautiful landscape of Thessaloniki. After we went to Rotunda where our guide informed us about its history. At the end of the tour we visited the White Tower and went to its roof. After the tour, we the Greek students went home, while our partners had lunch at a traditional tavern in the city center.

In the morning we arrived at the school and waited for the other students to come as well. When they arrived we gathered up in the main hall of the school and had a welcome ceremony. Mr Maniakas, the state school advisor, gave a short speech and then we had a coffee break. We introduced the foreign students to the rest of the school. After that we had the Futures Thinking Workshop in which some people talked us about the future, split us into groups and had us make a collage about how we envision a city at the future. Following that we went home while the teachers took our guests to have lunch in a nearby restaurant.

Early in the morning we picked up the foreign students from their hotel. After a long drive that lasted a couple of hours, we arrived at our destination, Meteora. It was really fun and we met a lot of students during the drive. When we arrived, a guide toured us inside one of the monasteries. We learned about its history and were allowed to roam the place. After that we were picked up by the bus and went to Trikala where we visited the town hall and listened to a presentation about Trikala and its innovations.

After the speech we went to a nearby restaurant for lunch. It was really fun and after that we had the chance to buy some ice cream. We were picked up by the bus again and went back to Thessaloniki. In the bus we listened to music, danced and enjoyed ourselves. When we finally reached Thessaloniki we dropped off the other students at their hotel and went home.

Thursday, the fourth day of Erasmus program, we had to wake up early again to arrive to Vergina. We had a very interesting and worth of attention tour! Later we had free time to go for a walk nearby Vergina! After that, we took the bus and went

to Veria, where some students-guides showed us the sights of their city! And then the best part, we took our guests to taste Greek traditional food and had a great time in the restaurant all of us. Then, we ate ice cream with some guys of Reunion and after that we had a lot of time to walk around the city and see its beauty. Around 17:00 o' clock we took the bus and return to Thessaloniki and during that we had funny and unforgettable moments in the bus, listening to music in all languages, dancing and talking about different issues.

Not having a sense of time, the last day of the Erasmus project had already arrived. We were at school all day starting with the presentations of each country. Unfortunately two of the Greek students (us) couldn't come because they had to participate in sports races but I think we filled the gap and the presentations were all amazing! Then only the guest students played a very interesting and entertaining game which caused panic! We were laughing all the time and me and some friends of mine helped the Reunion's students and they won!!! They were really happy and they thanked us a lot (they worthed the winning, to be honest). Later some of the Greek students, our dancing team, performed some traditional dances. All of the students of every nationality started dancing and we all have a great moment and we got closer to each other. Last but not least we had amazing greek traditional food made by mothers, fathers, grandmothers, and of course teachers! We ate a lot and had fun more! I spend five of the most thrilling, unique and unforgettable days of my whole life and I got so many experiences that I will remember for the rest of my life!
