A final thought (ha ha)

I genuinely enjoyed my time as part of this project. I loved being educated in the others' cultures and the students involved in it were so incredible that I'm glad I kept in touch with them even after the end of the project!

It was a really educative experience which gave us the chance to get to know people from other cultures, but also participate in activities with them.

Generally a very good experience

i like greece, too much love

We had a really good time
