

GETTING TO KNOW EACH OTHER...

[MY VOKI](#)

THIS IS MY HOUSE

I live in a detached house. On the ground floor there is a washing room and a big terrace. On the first floor there is my dad's desk and a space where we have a table tennis and a television. On the second floor there is everything. There is a garage, we keep the bicycles, cars and more, there is a living-dinning room with a sofa and a TV. Next to the living-dinning room there are my father's bedroom, my and my sister's bedroom. There are 2 bathrooms, there are 2 balconies. When you enter to the house you find the hall, it is small. Next to the hall there is a kitchen, it is big. There is an office and there is a small space to keep food. In my house there are 2 terraces and one balcony. What I like most about my house is the living-dinning room because it is big and I relax and I watch TV.
