### MY HOUSE

I live in a flat situated in the center of my village. My flat has two floors: on the first floor, there is a big living room, with a long balcony. On the same floor there is the kitchen, two toilets, one is small and the other is bigger, which has a big bath. Also there are three bedrooms on the same floor; one bedroom for my brother, one for my parents, and the other for me. In my bedroom I've got a big balcony from which you can see the river. It's amazing! In my house, there are a washing room near the toilet, in there we wash the clothes. If you go upstairs, there is a big studio, with two computers, games... In there we have a little living room with a sofa, and a small TV. This room is for relaxing, playing, or study. What I like most about my house of my house is the balcony, because we have the "estalada" (The name flag of my country, Catalunya) and also, we can see the river.
