## **MY HOUSE**

My house has three floors: on the ground floor there is a big garage with a little washing room, the entrance next to the garage and outside, there is a fantastic garden.

On the first floor there is my bedroom, next to it there is my parents' bedroom, with a balcony outside. Next to it there is a big bathroom. Also, there is a living room-dining room, with another balcony outside, and next to the living room there is a big kitchen.

On the second floor there is a small living room, there is an attic, a smaller bathroom, my sister's bedroom and next to it there is an ironing room. Outside, there is a big terrace.

My favourite part of my house is the big terrace of the second floor, because I can see all Osona and The Pyrenees.
