## My House

My house is not big not small. The front façade is brown and the back façade is white. When you enter, there is a hall. On the right there is a garage. At the end of the garage there is one washing room and a door that leads to a backyard with a table and chairs.

You go upstairs and then, on the first floor there is another hall. On the left there is a corridor with a studio and a toilet. At the end of the corridor there is a bedroom, that will be my new bedroom. On the right of the hall there is a kitchen, a dinning room and a living room altogether.

On the second floor, there is a bathroom, another corridor with my parents' bedroom and the bedroom I have now.

In my house I have two balconies and one terrace. The terrace is next to my bedroom. What I like most about my house is my bedroom, because I have a TV and I can play games.
