

I am Anna, 14-year-girl from Finland. I live in Tyrnävä, near by+ a city called Oulu. I live in countryside in a small detached house with my family. We have two cowhouses full of cows. I take care of the calves, they are really cute! We have also two kittens, Nökö and Siri.

There are mum, dad, two little sisters and a little brothers in my family. My siblings are sometimes annoying, but I love them anyway.

I'm on my personality nice and hardworking. I like to speak a lot, but I like to listen as well. Sometimes I'm wild and crazy and I tell silly jokes, but usually I'm calm and reliably. I have many friends and I love them.

I also like to cook and bake. My other hobbies are reading, hanging out with friends, hip hop dancing, riding a bike, jogging and listening to music. I like all kind of music, but my favourite music style is electronic dance. I started hip hop dancing this autumn, with one of my best friend, Aino. I like to read detective stories, which are ment for teenagers, but I have no time to read. I'm so busy with my homeworks and hobbies.
