ID	Antwort
1	With presentations and workshops.
2	workhops- in few classes my history indenty wheel
3	projects like identity wheel and my history
4	workshop like identity Wheel and my history
5	Projects identity wheel and my history
6	Althoght explanations and theory are important, the focus should lie in active participation. Copying some of the activities we took part in Greece, and bringing them to our school will surely have a great learning effect.
7	We will do a 90 minutes workshop with different games about culture, identity and discrimination and how it is associated. We didn't plan the workshop more detailed yet.
8	We will present selected activities to a few classes and try to explain how to understand different cultures.
9	We will make a workshop in all 9th classes.
10	Via a PowerPoint presentation and an activity.
11	We are going to play games and show things via power point presatation
12	We are going to do an activity (Footlanders vs Handlanders) then we will have the conversation about culture and lastly we will give our fellow students some key words
13	Through games and presentations that me and my team will develop. :)
14	Through the footland and handland game, which appealed to me and the other Greek students the most
15	Through the presentation we are going to introduce to our students. We are going to explain to them most of what we were taught during this programme.
16	We'll do a presentation about some of the themes, of which we think are most useful to everyones daily life.
17	-present the most important things that i learned to my classmates in form of a presentation
18	we did the workshop to the other pupils of DNL of the school
19	work shop in classes
20	We think to realize this through different workshops similar to those realized in Greece.
21	I did my formation and it was really interessant to share what we learn during this week. It was a little bit difficult the first time but then it was easier.
22	With the formation on french classes, speak with other student about what we spoke in Greece during the formation and explain.
23	By posting and sharing my experience, both orally and in pictures
24	With my group , we intend to take 3 presentations to the other students involved in the project

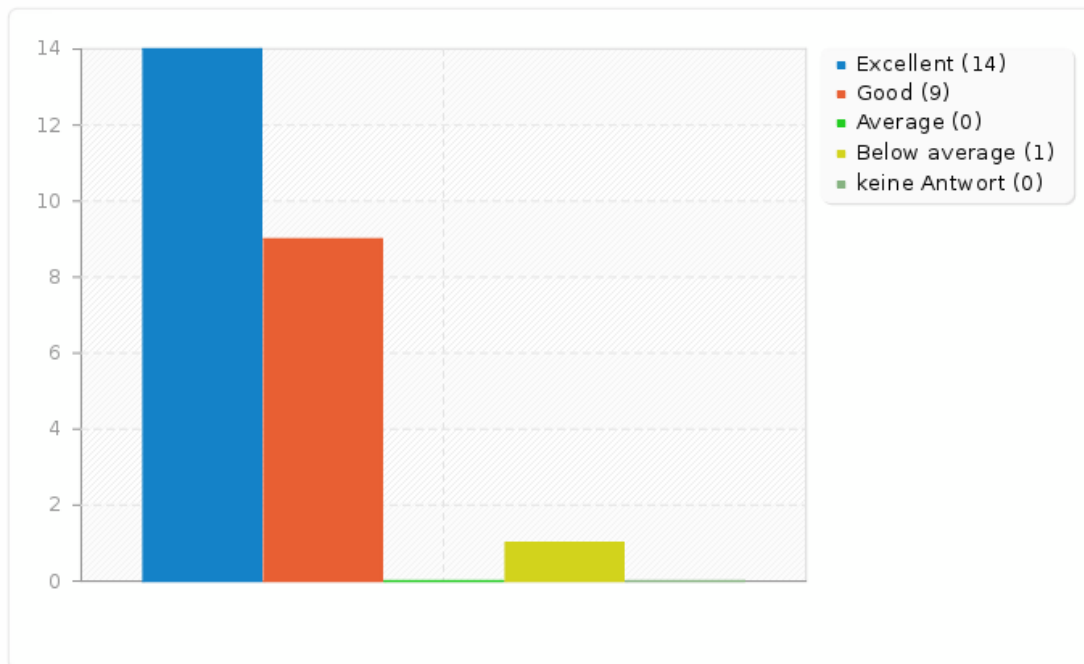

Feld-Zusammenfassung für A11

How did you like the after-workshop activities?

1	No
2	no, I don't
3	no I dont
4	no i dont
5	No
6	The only complaints I personally had were nothing that lied in the hands of the organisers. I'd even go as far as to say the whole organsiation was exellent. Keep up the good work.
7	As I was really happy with the project I actually have nothing to say what you can improve. Keep this good work on.
8	I do not have any advice because everything was amazing!
9	
10	No since I believe that everything was well organized.
11	No, everything was good!
12	the training was so well organized and someone could easily see that you put so muck work into that. Although there were some people that didn't want to participate and you couldn't give them a motive in order for theme to take part on the activities. personally I believe that those 5 days were an experience that I will never forget and it was for sure the best week I've had
13	You were excellent, but next time try to bring children that have a better understanding of the English language (some of them were not quite familiar with it and the cooperation became difficult :)).
14	Absolutely none, congratulations on managing our time so well!
15	No, I believe that the programme as well as you were very interesting and helpful to us when it comes to the commucatio among different cultures !
16	It was perfect and I can just say, that you should do as you already did :)
17	It really helped to get to know our host student beforhand
18	No, it was cool
19	no i don't
20	No
21	No, it was really cool
22	no, this trip and formation in Greece learned me a lot on the subject.
23	Go on !
24	none , it was really a great experience
